Group Report

Dear Shareholders,

As expected your Company managed to continue the positive business development of the previous quarters also in the third quarter 2010 supported by the temporary economic recovery. Thus, it was possible to improve sales and profits in the first three quarters of 2010 in comparison to last year, both in cartonboard production as well as in the folding carton business.

MM Karton primarily focused on passing on the massive increase in fiber prices. Due to the fact that capacities were fully utilized in the third quarter, the so far incurred cost burden could be passed on to a noticeable extent and the margin recovered.

MM Packaging managed to sustain profitability at a high level particularly due to growing sales and volumes. However, increasing cartonboard prices remain a great challenge.

Although we have already passed this year's order peaks, we still started the fourth quarter well booked. In line with the continuing positive order situation, we do not expect any significant price decreases on the procurement markets. In fact, the prices for chemicals and logistics are going up considerably, which is why another cartonboard price increase has been implemented since the beginning of October.

However, after last months' momentum, we expect a normalization in business development in the next few quarters.

Income statement

At EUR 1,315.7 million, consolidated sales of the Group were up 10.9 %, i.e. EUR 129.2 million compared to the previous year (1-3Q 2009: EUR 1,186.5 million). A clear increase in volume in both divisions as well as higher cartonboard prices were the most significant reasons for this rise.

Consolidated sales by destination (according to IFRS for interim financial reporting, unaudited)

| (in %) | 1 st - 3 rd Quarter | |
|----------------|---|------------------------|
| | Jan. 1 - Sep. 30, 2010 | Jan. 1 - Sep. 30, 2009 |
| Western Europe | 68.1 % | 70.3 % |
| Eastern Europe | 24.8 % | 22.3 % |
| Asia | 3.4 % | 2.9 % |
| Other | 3.7 % | 4.5 % |
| Total | 100.0 % | 100.0 % |

The operating profit could be improved by 12.0 %, from EUR 110.1 million to EUR 123.3 million. With additional volume and higher cartonboard prices, the so far incurred price increase for input factors, in particular fibers, was compensated. Thus, the Group's operating margin remained stable at 9.4 % (1-3Q 2009: 9.3 %).

Resulting from lower interest rates, both financial income went down from EUR 6.8 million to EUR 1.8 million and financial expenses from EUR -3.9 million to EUR -1.7 million.

Non-recurring expenses from the disposal of participations amounted to EUR -6,9 million and resulted mainly from the discontinuation of cartonboard production and the sale of Karton Deisswil AG, Switzerland in the second quarter.

Profit before tax therefore amounted to EUR 113.9 million, compared to EUR 110.2 million in the comparative period of 2009.

At EUR 30.7 million and 27.0 % income tax expense as well as the effective Group tax rate remained almost on last year's level (1-3Q 2009: EUR 29.9 million, i.e. 27.1 %).

The profit for the period reached EUR 83.2 million, an increase of 3.6 % compared to the previous year. In the first three quarters of 2010, a basic weighted average of 20,095,509 shares were outstanding. On this basis, earnings per share added up to EUR 4.04 (1-3Q 2009: EUR 3.69).

Assets, capital and liquid funds

As of September 30, 2010, the total assets of the Group amounted to EUR 1,446.6 million and therefore exceeded the value at year-end 2009 by EUR 54.8 million (December 31, 2009: EUR 1,391.8 million). This was above all attributable to the acquisition of the folding carton producer Marinetti S.A., Chile. The Group's total equity amounted to EUR 954.2 million, compared to EUR 964.3 million on December 31, 2009. This difference basically results from the profit for the period which is offset by the dividend payment for 2009 and share repurchases during the current year as deductible items.

Financial liabilities, which are mainly of current nature, went up from EUR 67.8 million (December 31, 2009) to EUR 74.9 million. Total funds available to the Group, mainly consisting of fixed-term deposits, amounted to EUR 253.7 million as of the end of September 2010 (December 31, 2009: EUR 356.5 million), thus resulting in a net liquidity for the Group of EUR 178.8 million (December 31, 2009: EUR 288.7 million).

At EUR 657.2 million non-current assets were up EUR 51.1 million from the year-end value of 2009 (December 31, 2009: EUR 606.1 million) mostly due to the latest acquisition.

In January 2010, the Group acquired 1,120,000 own shares and increased its stock holding to 2,015,260 shares. According to the resolution of the 16th Ordinary Shareholders' Meeting, 2 million treasury shares were cancelled by way of a simplified capital reduction of share capital as of June 17, 2010. Thus, as of September 30, 2010, the Group holds 15,260 treasury shares, i.e. 0.08 % of equity. The book value per share is EUR 59.23. The share repurchase program from November 27, 2007 until November 7, 2010 at the latest, was terminated as scheduled.

Cash flow development

Cash flow from operating activities reached EUR 88.2 million, compared to EUR 129.6 million in the first three quarters of 2009. This difference was mostly attributable to an increase in working capital as a consequence of the higher business volume.

Cash flow from investing activities amounted to EUR -83.6 million compared to EUR 116.5 million in the year-on-year comparison. In this case, comprehensive securities redemptions in the previous year face higher net payments for the acquisition of tangible assets and a participation in the current year.

The cash flow from financing activities changed particularly due to higher expenditures for the acquisition of own shares, from EUR -66.7 million to EUR -109.7 million.

Development in the third quarter

Business development in the third quarter was characterized by continued high utilization of capacities in both divisions as well as by a significant adjustment of cartonboard prices to the increased cost level.

At 99 % MM Karton's capacities were fully utilized in the third quarter following particularly high utilization rates already seen in the previous quarters (1Q 2010: 97 %; 2Q 2010: 98 %; 3Q 2009: 90 %). As a consequence of higher prices and volume, MM Karton's sales came in significantly higher compared to the second quarter's figures (EUR 225.0 million versus EUR 207.4 million), as well as compared to the third quarter in the previous year (3Q 2009: EUR 197.7 million). Due to the compensation of the increase in input factor costs so far incurred, the operating margin significantly improved to 8.8 % (2Q 2010: 6.3 %; 3Q 2009: 7.1 %).

Based on a strong quantity and sales development, MM Packaging's operating margin remained largely stable in the third quarter at 9.9 % (2Q 2010: 10.0 %; 3Q 2009: 10.5 %).

The operating profit of the Group registered a considerable increase to EUR 45.7 million (2Q 2010: EUR 37.4 million; 3Q 2009: EUR 39.9 million), resulting in an operating margin of 10.1 % (2Q 2010: 8.8 %; 3Q 2009: 9.6 %).

With a profit for the period of EUR 34.3 million, the third quarter ended with the highest historical period result.

Further information

Discontinuation of production and disposal of Karton Deisswil AG

At the end of May 2010, MM Karton sold all shares in Karton Deisswil AG to a regional Swiss investor group. Cartonboard production was shut down permanently.

Purchase of the largest Chilean folding carton producer, Marinetti, accomplished

In September 2010, MM Packaging purchased a participation of 70 % in the folding carton manufacturer Marinetti S.A. located in Santiago, Chile. This was recorded in the balance sheet on September 30, 2010 and will be included in the income statement in the fourth quarter 2010.

Outlook

Considering the current order situation, a good utilization of capacities in both divisions can at least be expected until year-end. However, there are rising indications that the dynamics of the current year will turn into a normalization of business within the next few quarters.

While on procurement markets, the prices for recovered paper and pulp should have stabilized at a high level, other cost factors particularly logistics and chemicals are still rising. Therefore, at the beginning of the fourth quarter, MM Karton once again adjusted its sales prices to the increased cost level.

The margins of MM Packaging will likely be impacted by significantly higher carton-board prices. Therefore, the successive passing on of price increases is a top priority in the packaging division.

Still, we expect continued positive development for the fourth quarter and for the full year 2010.

High dedication is set on the continuation of our growth path. A strong focus will however be maintained on responding adequately to possible changes in the overall economic situation.

Divisions

MM KARTON

So far over the course of the year 2010, even temporary shortages in cartonboard had to be registered. This development is mainly attributable to the economic recovery and the filling-up of the supply chain as well as to the recent shut-downs of capacities in the industry. Taking these circumstances into account, at approximately 177,000 tons the average order backlog of MM Karton in the first three quarters of 2010 was considerably higher as compared to the average value in the previous year (1-3Q 2009: 47,000 tons).

Due to strong demand, the prices on the procurement markets also showed a massive upsurge. In particular prices for recovered paper and pulp increased significantly and stabilized at a high level not before the third quarter. Due to full utilization of capacities and scarce availability, the planned cartonboard price increase could be completely implemented as of the middle of the year, thus resulting in a significant recovery of the margin in the third quarter.

The good order situation led to a utilization of 98 % of MM Karton's capacities in the first three quarters of 2010 (1-3Q 2009: 86 %). Approximately 1,182,000 tons were produced. That corresponds to an increase of 7.1 % compared to the previous year's value (1-3Q 2009: 1,104,000 tons).

Accordingly, cartonboard sold went up by 9.5 % to 1,194,000 tons. At approximately 83 %, the sales share in Europe rose considerably compared to last year (1-3Q 2009: 78 %), thus reducing the sales in non-European markets to 17 % (1-3Q 2009: 22 %).

Sales increased by 15.3 % both in terms of quantity and prices, from EUR 565.6 million to EUR 652.3 million. At the same time, operating profit was improved by 12.2 % to EUR 45.0 million (1-3Q 2009: EUR 40.1 million). The operating margin reached 6.9 %, after 7.1 % in the first three quarters of 2009.

MM PACKAGING

The interim economic upswing of the last few months, driven especially by the unexpectedly strong economy in Germany, had a positive impact on private consumption and packaging demand. On this basis, the MM Packaging sites recorded an overall high capacity utilization during the first three quarters of 2010. Against this backdrop, long delivery periods for cartonboard and ensuring an adequate supply of our customers were a great challenge in the ongoing business.

The main focus was on passing on significantly higher cartonboard prices in a still very competitive market environment. The scarcity of cartonboard and the good employment situation, however, have had a supportive effect so far.

The focus of investment activity centered particularly on the establishment and start-up of MMP Tehran and modernizations of the machinery.

The tonnage processed rose by 7.0 % to 504,000 tons (1-3Q 2009: 471,000 tons).

Analogously, sales of EUR 755.2 million were 6.2 % higher compared to the previous year's level (1-3Q 2009: EUR 711.2 million). As a consequence of the momentum in quantities as well as high productivity and cost efficiency, the operating profit was improved by 11.9 % to EUR 78.3 million (1-3Q 2009: EUR 70.0 million).

Thus, the operating margin went up from 9.8 % to 10.4 %.

Notes to the Consolidated Quarterly Financial Statements

(1) General

These condensed consolidated quarterly financial statements and notes thereto of Mayr-Melnhof Karton AG and its subsidiaries have been prepared in accordance with IFRS for interim financial reporting as adopted by the European Union and were neither voluntarily audited nor reviewed by an auditor.

The present condensed consolidated quarterly financial statements have been prepared using the same accounting principles as for the consolidated financial statements as of December 31, 2009. The amendments to existing standards as published in the Official Journal of the European Union and effective since January 1, 2010 have not shown significant impact on the Group's financial statements and financial position.

(2) Acquisitions and disposals

ACQUISITIONS

In September 2010, the division MM Packaging acquired an interest of 70 % in Marinetti S.A., located in Santiago, Chile. The company produces folding cartons for the Chilean consumer goods packaging market. Acquisition costs amounted to thous. EUR 32,800.0.

Inclusion into the balance sheet of Group and division was effected on September 30, 2010. Inclusion into the income statement will be effected from the fourth quarter of 2010 onwards. Fair values of assets and liabilities according to IFRS at this date were presented as follows:

| Fair values according to IFRS | |
|--|-----------------|
| (all amounts in thousands of EUR) | Sep. 30, 2010 |
| Property, plant and equipment | 33,301.5 |
| Intangible assets and financial assets | 14,214.6 |
| Other current assets | 21,326.5 |
| Cash and cash equivalents | 1,925.3 |
| Non-current liabilities | (9,738.7) |
| Current liabilities | (18,689.4) |
| Deferred income taxes | (3,707.8) |
| Option liability | (15,597.0) |
| Goodwill | 9,765.0 |
| Net assets | 32,800.0 |

The remaining goodwill reflects the company's market position on the Chilean packaging market. Concerning the acquisition of the remaining minority interest of 30 %, both the division MM Packaging and the minority shareholder have an irrevocable option being exercisable in January 2015 at the earliest. The put option of the minority shareholder was recorded as option liability.

DISPOSALS

In the second quarter of 2010 the division MM Karton sold its 100 % stake in Karton Deisswil AG, Switzerland. The production of cartonboard remains discontinued. Furthermore, the majority interest of 66.67 % in WÜRO Papierverwertung GmbH & Co KG, Germany, a company in the business of recovered paper collection, was sold. These disposals of businesses result in total expenses before tax amounting to thous. EUR 6,918.0.
